FIRST DIVIDEND IS DECLARED

ROUND MOUNTAIN MINING COMPANY DIRECTORS ORDER \$32,000 PAID.

The first dividend of the Round Mountain Mining Company was declared yesterday at a meeting of the directors, at the rate of 4 cents a share, which means a disbursement of \$32,000. Stockholders of record on June 15 will be able to have their checks cashed three days later. There was quite a lengthy discussion among the directors as to the size of the dividend, and at what intervals it would be forthcoming, but it was finally concluded to establish a quarterly dividend, with a special dividend thrown in if the receipts warranted. At yesterday's meeting there were present J. P. Loftus, J. R. Davis, John S. Cook, Louis Gordon and Harry C. Mayer, the full board of directors.

A report was submitted showing that the affairs of the company were in excellent condition, and with a surplus cash reserve that would warrant a much larger disbursement, but it was thought expedient to hold a good strong reserve fund, as it is contemplated to do some extensive improvements and also desirable to acquire other ground in the neighborhood. Recently the company took over the holdings of the Western company, and yesterday the property of the Round Mountain Extension was taken in for a consideration said to be \$50,000. This gives the company a compact area of 280 acres, which is likely to be increased.

The mine has had a remarkable history, and many stories have been written about it that were not strictly true. About two years ago the camp was discovered and some phenomenally rich gold ore was found on the surface. Some of the ore carried slabs and deposits of gold on the faces that appeared as bright and pure as the gold in a coin. The discovery attracted wide attention all over southern Nevada and there was quite a rush for the new camp. The limits of the gold bearing zone were restricted, however, and the boom soon subsided, as about all of the ground of value had been taken in by Loftus & Davis.

At the meeting yesterday it was shown that the monthly production was \$40,000, and that the total cost of every description was \$13,000, leaving a net profit of \$27,000. The main working shaft has been sunk to a depth of 560 feet, and at this point a new ore body has been entered of higher grade than has yet been encountered in the mine. It remains an oxidized ore, as near the surface, and shows free gold. The report also showed that the total cost per ton for mining the ore and its treatment was \$5.49. This includes all the cost in every detail. All that is saved is by amalgamation, and 92 per cent of the assay value of the ore is saved on the plates at an average mill cost of \$1.63.—Goldfield Tribune.

NEWSPAPER MAN MAY GET BERTH

Now that Denver S. Dickerson has become Governor of Nevada and has power to revoke many appointments and appoint new officers, there is much discussion among the politicians in regard to the appointive offices and especially in regard to the office of private secretary of the governor, which was made vacant by the death of Riley Davis, private secretary of Governor Sparks.

Governor Dickerson stated yesterday that he had not decided who he would appoint as his private secretary, but that he had decided that whoever he appoints will be a newspaper man and a good one. He believes that a newspaper man is better qualified for the position than a man of any other profession. The new governor also stated that in those appointive offices where the men now holding them are doing good work and performing their duties as they should he will make no new appointments, but that where he finds an officer in an appointive position is not doing his work as he should he will lose no time in removing him and appointing a man better qualified for the office.

BANDITS SURRENDER.

TAHLEQUAH, Okla., May 27.—Thos. and James Wycliff, the famous Oklahoma outlaws who have been hunted by government authorities of Oklahoma for thirteen years, surrendered to the State authorities here today.

TURNING OUT THE BEST WORK

The blindery of the Bonanza is turning out the best work in the city, and it is giving such great satisfaction that anyone who has his work done there once, never goes anywhere else. The plant is the finest and most complete, not only in the State, but this side of San Francisco. We can turn out all kinds of work that is demanded in the offices of lawyers, brokers, promoters, mining companies, or for any other kind of business, and we guarantee satisfaction in every respect. One trial will be sufficient to establish the truth of this statement. It pays to go where only the best kind of work is done, and it pays to patronize home industry.

TACT.

She—Sir, I understand you said I had hard features.

He (saucily)—I plead guilty to saying you had a marble brow, arched eyebrows, eyes like diamonds and lips like rubies.—Chicago Journal.
